Residential Environmental Services

Aegis offers a wide range of residential environmental services for **Greenwood and the surrounding areas**. Our staff is *highly qualified* through both education and experience. Our inspectors are some of the most *highly-trained* in Indiana, equipped with the latest technology in the industry. Every inspection is tailored to meet the needs of each client. Aegis's diversification matched with *technical expertise* has distinguished us as a leader in the environmental consulting industry since 2000.

We all need a healthy and safe home environment. Sometimes it is the things you cannot see that cause problems for you and your family. Aegis offers many services to ensure you are fully aware of your current or prospective home's condition. Aegis works with you to keep your family healthy and safe from environmental threats.
